## ABOUT ME

Highly motivated IT student with a passion for technology seeking opportunities to apply academic knowledge in real-world environments. Adept at applying technical knowledge to solve real-world problems and dedicated to continuous learning and professional growth. Strong communication skills and ability to work effectively both independently and as part of a team

## ACADEMIC PROJECTS

### Final Year Project: Interactify

- Developed a social media platform with a focus on user empowerment and security, integrating innovative features such as:
  - Face Authentication: Secure account creation.
  - Stories with Collaboration Episodes: Enhanced storytelling capabilities.
  - DM Group Functionality: Streamlined communication.
- Utilized Django REST Framework for backend development and Flutter for creating a responsive cross-platform user interface.

### Cricket Win Predictor

- Leveraged Python and data science libraries to develop a model for predicting cricket match outcomes.
- Analyzed historical datasets of over 100,000 rows for pattern recognition and insights.

### Game Store Mobile Application

- Designed and built a cross-platform app for online game sales using Flutter and Firebase.
- Implemented user authentication and real-time database functionalities.

### Hospital Networking Topology

- Engineered a hospital networking topology featuring dynamic routing to interconnect the main branch with its sub-branches.
- This project focused on optimizing communication and data transfer efficiency between various departments, demonstrating skills in network design and management.

## SKILLS

- Python
- Flutter
- Django REST Framework
- HTML
- CSS,
- JavaScript
- SQLite,
- Firebase

## EDUCATION

### BS COMPUTER SCIENCE

Riphah international university

📅 2021 - 2025

## CERTIFICATES

- Cyber Security:  
[Python for Cyber Security](#)
- App Development:  
[Flutter Application Authorized](#)

## LANGUAGES

- English
- Urdu
