

## Python Developer

Required Skills: python, flask, sql, django, pandas, oop, rest api, unit testing, data structures, algorithms

Preferred Tools: github, docker, postgresql, mysql, vscode, jira, pytest, git, linux, aws

Must Have: python, flask, sql, django, pandas, oop, rest api, unit testing, data structures, algorithms

Nice To Have: github, docker, postgresql, mysql, vscode, jira, pytest, git, linux, aws

## Frontend Developer

Required Skills: javascript, react, html, css, typescript, redux, rest api, ui/ux, responsive design, webpack

Preferred Tools: figma, vscode, git, github, npm, babel, chrome devtools, eslint, tailwind, storybook

Must Have: javascript, react, html, css, typescript, redux, rest api, ui/ux, responsive design, webpack

Nice To Have: figma, vscode, git, github, npm, babel, chrome devtools, eslint, tailwind, storybook

## Data Analyst

Required Skills: sql, excel, powerbi, data cleaning, data visualization, statistics, python, pandas, pivot tables, dashboards

Preferred Tools: tableau, matplotlib, seaborn, jupyter, numpy, google sheets, looker, sas, bigquery, postgresql

Must Have: sql, excel, powerbi, data cleaning, data visualization, statistics, python, pandas, pivot tables, dashboards

Nice To Have: tableau, matplotlib, seaborn, jupyter, numpy, google sheets, looker, sas, bigquery, postgresql

Bonus: machine learning, nlp, r, snowflake, data warehouse

## Backend Developer

Required Skills: node.js, express, sql, rest api, authentication, microservices, caching, error handling, mongodb, unit testing

Preferred Tools: docker, aws, postman, git, nginx, github, mongodb atlas, linux, vscode, redis

Must Have: node.js, express, sql, rest api, authentication, microservices, caching, error handling, mongodb, unit testing

Nice To Have: docker, aws, postman, git, nginx, github, mongodb atlas, linux, vscode, redis

Bonus: kafka, graphql, socket.io, fastify, event-driven architecture
